Your Next Event Can be *Life-Changing!*

Edie Melson is a woman of faith with ink-stained fingers observing life through the lens of her camera. She's a writer who feels lost without her camera and a reluctant speaker who loves to encourage an audience. And she embraces the ultimate contradiction of being an organized creative. She knows the necessity of Soul Care and leads workshops throughout the world on staying connected to God.

Her numerous books, including the award-winning *Soul Care* series and *Unruffled, Thriving in Chaos* (co-authored with Rhonda Rhea) reflect her passion to help others develop the strength of their God-given gifts and apply them to their lives.

She and husband Kirk have been married 40+ years and raised three sons. They live in the foothills of the Blue Ridge Mountains and can often be found hiking—with Edie clinging to the edge of a precipice for the perfect camera angle and Kirk patiently carrying her camera bag and tripod.

Connect with her on her website, www.EdieMelson.com and through social media.
